GM 230™ BATTERY POWERED RIDER SCRUBBER

Amazingly clean floors, in one pass

The GM 230™ offers unsurpassed cleaning performance, even in the harshest environments. Experience the combination of effortless control and efficient, sustainable scrubbing in one powerful package: the GM 230™ industrial rider scrubber.

The large area cleaning expert

Available with either disc (scrubber-dryer) or cylindrical (sweeper-scrubber & dryer) capabilities, the GM 230™ is engineered to deliver effective, single-pass cleaning in the most demanding environments such as, manufacturing plants, factories, warehouses, universities and more.

ADVANTAGES

- Rugged, unsurpassed, large area cleaning performance.
- Solid (polyethylene) construction extends the life of the machine.
- Easy operation: LCD monitor on steering control module for ease-of use.
- User-friendly design enables operators to work more efficiently.
- Choose from disc or cylindrical (sweeper/scrubber) options.
- Quiet, 68 decibel unobtrusive cleaning.
- Exceptional visibility and outstanding operator comfort.

TYPICAL APPLICATIONS

- Warehouse and Transportation
- Manufacturing
- Factories
- Food and Beverage
- Distribution
- Municipalities
