A HIGHER LEVEL OF CLEANLINESS, AT A LOWER COST.

Optimized runtime & performance

The GM-70™ series of floor cleaning machines quietly scrubs, cleans & dries a variety of floor spaces in many different applications. With lock-in, repeatable cleaning results, the GM-70™ delivers exceptional cleaning performance and reliability, even in the toughest environments. The integration of the highest standard Ametek® vacuum motor & industrial scrub brush motors will ensure your satisfaction for the life of your machine.

Consistently high productivity

The GM-70™ floor scrubbers offer incredible value in a walk-behind platform. High productivity per tankful allows for up to 60 minutes of continuous scrubbing, without having to refill the tank. At the touch of a button one can scrub the toughest of soils, guaranteeing exceptional floor cleaning performance for any job along with lowered cleaning costs.
