

Optimal performance. Consistent results.

The Mendel® MBD60 is a unique ride-on floor scrubber. It is designed for spaces that need the productivity of a rider, but not the size. Capable of fitting through a standard door-frame, the MBD60 offers easy operation & maneuverability in congested areas. Though it has a smaller housing design, its optimal scrub brush pressure and high RPM (brush speed) makes the MBD60 a very distinguished compact rider scrubber, covering up to 30,140 square feet per hour! The MBD60 is suitable for a wide variety of spaces including offices, hospitals, schools, and retail locations.

Tech. Specifications

Size:	22"
Productivity:	30,140 Ft ² /h
Solution tank capacity:	15 Gal / 80L
Power supply:	24V (2x12V)
Weight:	360 Lbs (without batteries)
Scrub pressure:	90 lbs
Price:	\$6,800.00
Warranty:	1 year parts warranty

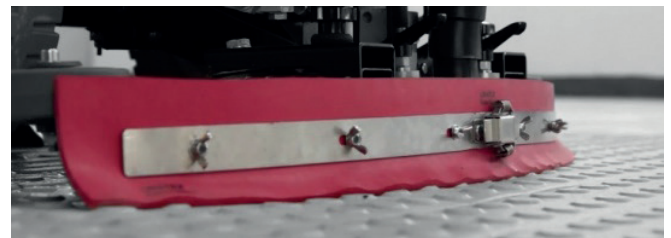

Premium AGM batteries.

The MBD60 uses a 24 volt battery system that is powered by two (2) 140Ah maintenance free AGM batteries that provide up to 3 hours of run time! The Smart Series™ battery charger automatically turns off when the batteries reach a full charge.

Superior squeegee design.

The curved squeegee design & vacuum system ensures water and soils are immediately removed from the floor for minimum risk of slip-and-fall accidents. The MBD60 by Mendel® uses high quality polyurethane blades, providing excellent water pick-up and drier floors.

Simple, intuitive controls.

The MBD60 by Mendel® comes equipped with the simplest, most intuitive control board. All scrubbing functions are located conveniently at the steering wheel, including the water level indicator, battery charge indicator, and scrubbing functions.
