

### Optimal performance. Consistent results.

The MB860 delivers exceptional cleaning results on any hard-surface floor. Designed for high productivity and efficiency, this mid-size solution has a revolutionary scrub deck for medium to large area cleaning. This dual-brush ride-on floor scrubber by Mendel® provides superb performance and is available in a 28 or 32 inch scrub path for more efficient scrubbing. The MB860 boasts a productivity rate of up to 42,328 sq feet per tankful! Its design and superior scrub system capabilities maximize cleaning performance in a single pass.

#### Tech. Specifications

Size:	28-32"
Productivity:	42,000 Ft <sup>2</sup> /h
Solution tank capacity:	21 Gal / 80L
Power supply:	24V (2x12V)
Weight:	485 Lbs (without batteries)
Scrub pressure:	150 lbs
Price:	\$11,900.00
Warranty:	1 year parts warranty

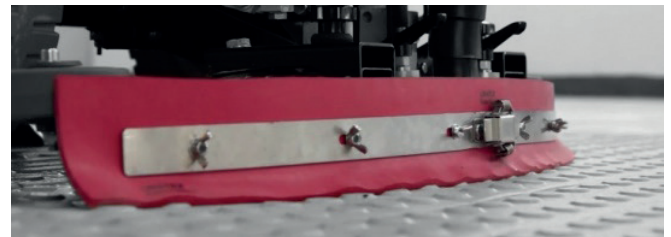

### Premium AGM batteries.

The MB860 uses a 24 volt battery system that is powered by two (2) 255Ah maintenance free AGM batteries that provide up 4 hours of run time! The Smart Series™ battery charger automatically turns off when the batteries reach a full charge.

### Superior squeegee design.

The curved squeegee design & vacuum system ensures water and soils are immediately removed from the floor for minimum risk of slip-and-fall accidents. The MB860 uses high quality polyurethane blades, providing excellent water pick-up and drier floors.

### Simple, intuitive controls.

The MB860 comes equipped with the simplest, most intuitive control board. The machine uses universal One-Touch controls and a digital solution level indicator for easy operation. All functions are located conveniently at the steering wheel, including the water level indicator, battery charge indicator, and all scrubbing functions.
